Items to be shown on site plan.

### **Items to be shown on site plan:**

6. Location of all existing or proposed structures, improvements such as streets, alleyways, etc. and site uses, properly dimensioned and referenced to property lines, setback and yard requirements and special relationships.

7. Date, scale, north point, and the names, addresses and telephone numbers of both property owner and the person preparing the plan.

8. Existing and Proposed site elevations, grades, and major contours.

9. Construction details of permanent grade changes around all trees.
10. Survey locating protected trees on the site to remain that are three (3) inch caliper or greater when measured at a point four and one-half (4 1/2) feet above the ground level. Protected trees shall be designated by a circle.
11. Survey locating trees on the site to be removed that are three (3) inch caliper or greater when measured at a point four and one-half (4 1/2) feet above the ground level. Trees to be removed shall be designated by a triangle.
12. Proposed general areas or locations of the replacement trees. Location
13. Location and dimensions of visibility triangles.

Tree information required shall be summarized in legend form on the plan and shall include:

1. The list of trees to be removed.
2. The total diameter of trees to be removed.
3. Replacement trees listed by species name, quantity, size and total diameter required for replacement of trees. (See Section 10 for replacement tree list.)

Applicant certifies that if approved all construction activities shall meet the requirements of the Tree Preservation Ordinance.
